

***Policy and Practice to Tackle
Fetal Alcohol Spectrum Disorders***

Co-hosted by the Polish National Center for the Prevention of Addictions, with support from the Institute of Mother and Child, Warsaw, Poland

13th of September 2022 (9:00-17:00), Thon Hotel, Arendal, Norway, as a part of the European Conference on FASD (EUFASD 2022, 12-14 Sept)

SCOPE AND PURPOSE

Alcohol exposed pregnancies (AEP) entail a high risk to the unborn child and may result in a series of adverse effects including congenital anomalies and behavioural, cognitive and adaptive deficits¹. Although there is evidence of effective interventions to prevent AEP, many pregnant women in Europe continue drinking, and there are still few region and nation-wide practices in Europe. The EU has the world's highest rates of FASD - over 2.5 times the global average.²

The final Thematic Capacity-building workshop organised by FAR SEAS (www.far-seas.eu/capacity-building/) invites around 40 policymakers, multi-sectoral professionals and the scientific community to exchange knowledge and experiences, discuss barriers and solutions in carrying out national prevalence estimates of FASD, and effective policy and practice to reduce prenatal alcohol exposure (PAE) in European contexts.

STRUCTURE AND SETTING

The interactive 1-day workshop will take place within the programme of the EUFASD Conference in Arendal, Norway, and is divided into 2 consecutive and linked sessions:

- **Session 1: The population impact of FASD: Implementing large-scale prevalence of FASD studies:** Gives an overview of the latest estimates of the prevalence of alcohol exposure during pregnancy and FASD in general populations for different jurisdictions, WHO regions and globally, and a more detailed look at prevalence in special sub-populations, and costs and comorbidities associated with FASD. The first session will also provide a practical introduction to the WHO methodology to assess national prevalence of FASD and first-hand accounts from the experience of this in different European countries, and include debate of the barriers and facilitators and need for harmonization in large-scale prevalence estimates.
- **Session 2: Where we go next - Policy and practice to reduce the risk and prevalence of FASD:** focuses on best practice alcohol prevention efforts to address PAE and FASD. The second session will share the results of the FAR SEAS best practice review, guidelines and pilot study and outputs to promote reduction of prenatal alcohol exposure in European contexts, and include discussions to find solutions to common barriers and issues at the national, sub-national and European levels.

AGENDA

Session 1 - The population impact of FASD: Implementing large-scale prevalence of FASD studies

Time	Topic	Chair + Speakers
9:00	Welcome message and introduction <ul style="list-style-type: none"> - Welcome + overview from the hosting Member State (Poland) - The FAR SEAS Contract – Context and aim of the workshop 	Chair: F Braddick (FCRB, ES) <ul style="list-style-type: none"> - Katarzyna Łukowska (KCPU, PL) - Fleur Braddick
9:20	Presentation of the existing evidence <ul style="list-style-type: none"> - Global and specific population prevalence estimates – updates and trends - Public health impact of FASD – key comorbidities and economic costs 	<ul style="list-style-type: none"> - Lana Popova (CAMH, CA)
9:40	Practical introduction to the WHO methodology + Q&A	<ul style="list-style-type: none"> - Lana Popova
10:00	Stakeholder perspectives – Experiences of applying and adapting the WHO methodology in EU contexts + Q&A: <ul style="list-style-type: none"> - UK – The value of starting small-scale regional - National prevalence studies 	Chair: K Okulicz-Kozaryn (KCPU/IMC, PL) <ul style="list-style-type: none"> - Penny Cook (UK) - Diana Akhmedzhanova (UKR)
10:30	Stakeholder perspectives – relevance in different sectors + Q&A: <ul style="list-style-type: none"> - Prevalence of FASD in the care system - The experience of FASD in different areas of society 	Chair: L Segura (Gencat) <ul style="list-style-type: none"> - Oscar Garcia (Catalonia, ES) - Alessandra Pisa (IT)
11:00	Summary + explanation of the group work + split into groups	L Popova + F Braddick
11:05	Coffee Break	
11:30	Breakout groups (each group discusses a different issue/step): <ol style="list-style-type: none"> 1. Ethical considerations + participant protection 2. General or subgroup population estimates 3. Communicating the results 4. Policy responses to support those with FASD 	
12:05	Feedback to the plenary (with rapporteurs)	Chair: F Braddick <ul style="list-style-type: none"> - Rapporteurs/Moderators
12:30	Wrap up + Close session (Lunch in Clarion Tyholmen)	

ACKNOWLEDGMENTS AND DISCLAIMER This workshop, co-hosted by the Polish National Center for the Prevention of Addictions (KCPU), with support from the Institute of Mother and Child (IMC), Warsaw, Poland, is produced under the service contract funded by the EU Health Programme 2014-2020 **FAR SEAS Contract** (20187106) with the Health and Digital Executive Agency (HaDEA) acting under the mandate from the European Commission. The information and views presented in the sessions are those of the speakers, and hence represent their sole responsibility. Accordingly, the information and views presented during sessions cannot be considered to reflect the views of the European Commission and/or the Health and Digital Executive Agency or any other body of the European Union. The European Commission and the Agency do not accept any responsibility for use that may be made of the information presented during the workshop sessions.

Session 2: Where we go next - Policy and practice to reduce the risk and prevalence of FASD

Time	Topic	Chair + Speakers
13:40	Welcome back and feeding forward <ul style="list-style-type: none"> - Wrap up and key messages from the first session - FAR SEAS Contract – linking Prevalence and prevention 	Chair: J Colom (Gencat) <ul style="list-style-type: none"> - Lana Popova (CAMH) - F Braddick (FCRB)
14:00	Mapping advances in good practice in Europe and beyond + Q&A <ul style="list-style-type: none"> - The FAR SEAS inventory of good practice to prevent FASD - Guidelines aimed at reducing FASD 	- Carla Bruguera (Gencat) - Lidia Segura (Gencat)
14:30	Stakeholder experiences with implementation + Q&A <ul style="list-style-type: none"> - Regional Pilot in Poland and preliminary results - Including end-users' voices - Finland - Reaching partners of women who drink in pregnancy 	Chair: E Scafato (ISS, IT) <ul style="list-style-type: none"> - Kasia Okulicz-Kozaryn (PL) - Lesley Smith (UK) - Taija Voutilainen (FI)
15:10	Summary + explanation of the group work + split into groups	L Segura, K Okulicz + F Braddick
15:15	Coffee Break	
15:45	Breakout groups (each group discusses a different issue/barrier): <ul style="list-style-type: none"> A. Coordination of referral pathways B. Changing public and professional attitudes C. Ethical issues and discrimination D. Adapting to different country settings 	
16:20	Feedback to the plenary (with rapporteurs)	Chair: L Segura Rapporteurs/Moderators
16:40	Way forward at European level (roundtable to discuss how EU policy and action can stimulate national prevalence studies and effective prevention practice)	Chair: F Braddick - Discussants TBD
17:00	Close session 2 (End of day)	

Co-hosted by the Polish National Centre for the Prevention of Addictions (KCPU)
 with support from the Institute of Mother and Child, Warsaw, Poland
